EDUCATION

B.Tech (CSE)
Lovely professional University
07/2019 - 06/2023   *7.51*

Intermediate (PCM)
Rainbow School, Saharanpur
05/2018   *8.63*

Matriculation
Rainbow School, Saharanpur
05/2016   *8.80*

PERSONAL PROJECTS

Grade Book App using React
- Grading Digital Book for the exam implemented by using React.
- The whole project is divided into 3 sections - header, main block, footer.
- Various options like filtering, sorting are there.

Responsive E- Commerce Website using HTML, CSS and JavaScript
- Designed and developed a fully responsive e-commerce website using HTML, CSS, and JavaScript to provide an engaging online shopping experience. The project consists of multiple pages, including the homepage, shop, blog, about us, and contact us pages, catering to a diverse range of user needs.
- Created dedicated product and product details pages with intuitive layouts, enabling users to explore product details. Implemented a user-friendly contact us page with a contact form, allowing visitors to easily reach out for inquiries or support.
- Implemented modern CSS techniques to ensure seamless functionality and aesthetics across various devices and screen sizes, enhancing user accessibility and satisfaction.

Responsive JavaScript Business Website Landing Page
- Designed and developed a dynamic business website landing page that showcases modern web development skills and advanced JavaScript concepts. The landing page features an interactive hamburger menu, diverse sections including About, Contact, and Pricing, and utilizes cutting-edge JavaScript techniques to enhance user engagement.
- Implemented a responsive hamburger menu using JavaScript, offering a seamless navigation experience on both desktop and mobile devices, enhancing user accessibility.
- Organized content into distinct sections, such as About, Contact, and Pricing, allowing visitors to quickly access relevant information and encouraging user engagement.

JavaScript Mini Projects Including Notes App
- Developed a series of JavaScript mini projects that demonstrate practical coding skills and problem-solving abilities.
- Created a dynamic web application that fetches jokes from an external API and displays them to users. Built a temperature conversion tool that enables users to convert temperatures between different units (e.g., Celsius to Fahrenheit). Created an interactive light bulb switch that toggles between on and off states with a click, showcasing interactive elements and visual effects.
- Developed a note-taking application with features to add, delete, and update notes, providing users with a practical tool for managing information.
- These mini projects collectively highlight my strong JavaScript programming skills, ability to work with external APIs, and expertise in building interactive and user-friendly web applications.

Supermarket Billing System Project In C++
- In this project, there are various functions like add function to add the goods and products in the market and delete function to delete some products, etc.
- Also, there is a buyer side where the buyer can buy the products or food items of his choice in a very detailed manner.

SKILLS

HTML5 CSS3 JavaScript React Nodejs
SQL C++ C

TRAININGS & INTERNSHIPS

EPAM Systems (01/2023 - 05/2023)
Front-End Technologies

Internshala Training (12/2020 - 02/2020)
Web Development

ORGANIZATIONS

Organization Name

Atom to Byte (07/2020 - Present)
CEO, Database manager

Ignite (03/2020 - 01/2022)
Human Resource Head

Spade (08/2019 - 02/2020)
Volunteer

CERTIFICATES

Web Development Internshala Training
Certification on successfully completing web development training from Internshala Training

Web Designing Training Certificate
Certification on successfully completing course of web designing from Credible Academy
